Warning: Don't get tricked at the last minute.

Cybercriminals may attempt to steal your money transfer. Fraudsters hack emails, impersonate title companies and spoof your real estate agent or lender in an effort to trick you or your title company into sending funds to a fraudulent bank account. Do not trust any wiring information unless it comes through CertifID. If you receive any form of communication with new or revised instructions, visit your title company in person or call them on a number that you get through a trusted search engine.
